ROOT CANALS/ENDODONTICS

	Specialist (retreat)		In House
Upper front teeth	395 (500)	55	250
Lower front teeth	395 (500)	55	280
Premolars	395 (550)	55	300
Molars	550 (850)	55	360

← Re-treat in house + £50 →

From July 2007 all root canal treatments will attract a sundries fee for disposable files etc of £55.

(includes all x-rays, and single surface fillings to seal, but not crowns, complex fillings and not tooth coloured fillings on back teeth).

This group of treatments is the single most difficult in dentistry – and because of the biological influences over healing, guarantees cannot be given. If however, we have to remove any root – filled tooth within one year, 30% of the endodontic fee will be credited to your account and as a goodwill gesture, the extraction will be done at no further charge. (applies to in-house work only) Some root canals will need to be referred to a specialist and those fees are indicated above.

WHITENING

We advise that children do not whiten their teeth unless they are suffering from great distress due to the appearance.	330	370
